

UW School of MyDental Dentistry Privacy Policy

Protect Your Privacy UW School of Dentistry uses an electronic health record, as it is an important part of improving the quality of the care we provide to our patients. Faculty, dental hygienists, dental assistants, pre-doctoral students and authorized staff use the electronic health record to provide the information needed to treat you. Policies, processes and technical protections are in place to keep your information from being seen by anyone who should not see it. Our policies and processes conform to state and federal law and are designed to safeguard your privacy. Our staff is educated in confidentiality and the appropriate use of medical and dental information.

Your Dental Record UW School of Dentistry MyDental is an Internet application that enables you to have secured web based access to submit your personal information electronically. You have the ability to enter your personal information, insurance information and fill out your medical and dental health history prior to you appointment.

Secure Communication All UW School of Dentistry MyDental entries are carried over a secure, encrypted connection directly into the electronic dental record. Medical and dental information and your persona information reside securely behind information system firewalls.

Access Codes When you initially register to use MyDental, you will be provided with an access code. It is extremely important that you keep your MyDental access code, login name and password completely confidential.
